Graduation Rate Information

Florida’s graduation rate is a cohort graduation rate. A cohort is defined as a group of students on the same schedule to graduate. The graduation rate measures the percentage of students who graduate within four years of their first enrollment in ninth grade. Subsequent to their enrollment in ninth grade, students who transfer out or pass away are removed from the calculation. Entering transfer students are included in the graduation rate for the class with which they are scheduled to graduate, based on their grade level when they enroll in the public school system.
